

My name is Marie Scarlett Mupada. I am a proud graduate of Charles E. Gregory School of Nursing. I am currently pursuing my bachelor's degree and continuing for my master's degree at Monmouth University. I am also presently employed at Jersey Shore University Medical Center in Neptune, NJ. I am very humbled to serve the position as the NJNS, Inc. Legislation Education Director for the 2008-2009 terms.

My goal this year is to serve as your student advocate. This year is a very important year for a change in our country. I will do my best to encourage nursing students all over the state to VOTE! In addition, I will fully support and promote all the issues that NSNA makes to construct a better education for nursing students.

Furthermore, I will also make an effort to increase the awareness to campaign for "BSN in 10."

I look forward to serving my school, my community, and my state. Please feel free to contact me with your suggestions and comments at legislation@njnsinc.org.

Thank you for this opportunity.
