

Hello Students!

Welcome to all who are first time nursing students or coming back for your last year! I would encourage all of you to take time to be involved in your professional organizations. Your school might have a NSNA chapter, SNO, or a student body committee. It is a great experience to grow as an individual in the field of nursing. Even as a student, you can take charge of your future as an upcoming nurse.

You might ask how that is done; well NSNA is your answer. This organization offers you many opportunities to take part in your community and student body. Maybe you are a person that is passionate about educating the elderly or even volunteering your time to other students that might need your help. These qualities show leadership and it is up to you to take steps in the right direction!!

I am excited for the upcoming year as I serve you as Resolutions Director. I was able to participate at the National NSNA Conference in Nashville as a Helene Fuld School of Nursing delegate representative. It was an experience of a lifetime! I will be representing the state of New Jersey this year as I present the resolution in the House of Delegates where it will be votes on by each state that is represented in the United States. I will keep you updated on the topic I will be presenting this year!

Thank you all for your hard work and dedication to nursing!! Keep up the good work!

Elizabeth McFetridge
Resolutions Director
